LinkedIn: linkedin.com/in/ayush-nath06 | GitHub: github.com/in/ayushnath06

PROFILE

BTech CSE undergrad at JECRC University with a strong interest in startups, technology, and community-led growth. Core Team Member at the JECRC Incubation Centre and Campus Ambassador with multiple IIT E-Cells, actively exploring tech, startup operations, and growth strategy. Enjoys working at the intersection of technology, people, and ideas organizing events, promoting innovation, and learning by building. Always open to meaningful conversations, collaborations, and learning opportunities.

EDUCATION

JECRC University, Jaipur

Bachelor of Technology — Computer Science & Engineering (Core)

August 2025 – May 2029 | 2nd Year | CGPA: 8.0

Kendriya Vidyalaya

Senior Secondary, PCM | April 2022 – May 2024

TECHNICAL SKILLS

- Programming Languages: C, C++, Python, HTML/CSS, JavaScript (basics)
- Core CS: Data Structures & Algorithms, OOP fundamentals, STL
- Web Development: HTML, CSS, JavaScript (frontend basics)
- Hardware & Embedded: Breadboard prototyping, Motors/actuators, Arduino UNO, Line-following robotics
- Tools & Technologies: Git, GitHub, VS Code, Antigravity, Codex, Obsidian, NotebookLM, Claude Code
- Soft Skills: Publicity & Outreach, Event coordination, Public Speaking
- Currently Learning: Web Development, Data Structures & Algorithms, Open Source Contribution

PROJECTS

Campus Kart — Team CodeSpire, Hackathon Project (Frontend Lead)

- Built a student-to-student campus exchange platform for exchanging information and resources across campus — marketplace listings, notes sharing, delivery coordination, and buyer-seller matching.
- Led frontend development for the platform, translating a defined PRD and phased roadmap into a working product built with the team.
- Collaborated with a multi-member team, including a dedicated matching-engine microservice built on FastAPI.

Cognee — AI Assistant That Remembers Everything

- Built an AI assistant concept focused on persistent memory, designed to retain and recall context across conversations.

RF Simulator

- Created a project simulating RF (radio frequency) behavior/signals.

HACKATHONS & COMPETITIONS

- Code Slayer 2K25 — NIT Delhi (1st Year)
- DevCrest Buildthon
- Smart India Hackathon (SIH)

EXPERIENCE & COMMUNITY INVOLVEMENT

Open Source Connect India

Contributor | September 2026 – Present

Google Student Ambassador — India

Google Gemini Student Ambassador '26 | July 2026 – Present

JECRC Incubation Centre — Core Team Member

November 2025 – September 2026 | Jaipur

- Contributed to student entrepreneurship and startup-related initiatives within the university.
- Participated in founder outreach, event coordination, and community-building activities.
- Collaborated with team members and interacted with students, founders, and industry participants.

GirlScript Summer of Code — Contributor & Campus Ambassador

May 2026 – August 2026

eDC (Entrepreneurship Development Cell), IIT Delhi — Campus Representative

December 2025 – February 2026

Entrepreneurship Cell, IIT Kanpur — Campus Representative

December 2025 – January 2026 | Jaipur, Rajasthan, India

- Selected as a Campus Representative for E-Cell IIT Kanpur, driving entrepreneurship and innovation on campus.
- Actively promoted flagship initiatives like E-Summit & UpStart, leading outreach and social media campaigns.
- Connected student innovators with national-level startup opportunities.

Techfest, IIT Bombay — Campus Ambassador

August 2025 – December 2025 | India

- Selected as a College Ambassador for Techfest, IIT Bombay (Asia's largest science & technology festival).
- Represented Techfest on campus, driving student engagement and promoting national-level tech events.
- Led outreach initiatives to spark innovation and participation.

JUMakerspace — Member

September 2025 – October 2025 | Jaipur, Rajasthan, India

Innov8 3.0, JECRC University — Volunteer

- Supported the organization and execution of the university's technical fest.
- Assisted with event activities and coordination to ensure smooth execution.

ACHIEVEMENTS & CERTIFICATIONS

- Line Follow Robot Workshop
- Code Slayer 2k25 Hackathon
- Cybersecurity Workshop
- Letter of Recommendation from IIT DELHI
